1. Applicants' election without traverse of Group I, claims 1-13, in Paper No. 6 is acknowledged. Acknowledgment is also made of Applicants' request to cancel claims 14-97.

Election/Restriction

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

The species disclosed on page 6, paragraph [0018], line 7, as appears to be embodied in claim 6.

The species disclosed on page 6, paragraph [0018], line 7, as appears to be embodied in claim 7.

The species disclosed on page 7, paragraph [0021], lines 4-6 and page 12, paragraph [0033], lines 2 and 3, as appears to be embodied in claim 11.

The species disclosed on page 12, paragraph [0033], lines 8-14, as appears to be embodied in claim 12.

The species disclosed on page 12, paragraph [0033], lines 5-8, as appears to be embodied in claim 13.

APPLICANTS SHOULD CHOOSE FROM ONE CLAIM FROM CLAIMS 6 AND 7,
AND ONE CLAIM FROM CLAIMS 11-13.

Art Unit: 2856

Applicants are required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-5 and 8-10 are generic.

Applicants are advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, Applicants will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, Applicants must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should Applicants traverse on the ground that the species are not patentably distinct, Applicants should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 2856

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
